

# GRAVITY SPIRAL CHUTES

## INDUSTRY NEED

Gravity spiral chutes are needed in many distribution and fulfillment centers for package flow.

## THE LOGISTIQ ADVANTAGE

- Low coefficient of friction allows for:
  - **Packages to move faster**
  - **Damp packages to maintain speed**
- **Self-starting** at angles up to 10 degrees less than standard steel chutes
- Various materials are available to **support specific package weights**
- **Fully customizable**
- Delivered assembled for **fast and simple installation**

## IDEAL END USES

- Distribution & Fulfillment Centers
- Commonly used with Heavy Duty Bulk Parcel Belt Conveyors

## SPECIFICATIONS

- Right Decline
- Left Decline
