Our innovative solutions are informed by a deep understanding of our customers and their needs. LogistiQ is a vertically integrated conveyance solutions provider, purpose-built for the e-commerce distribution market. Every day, we apply our strengths of nimbleness, speed, and precision to deliver the right solutions you are looking for, whether that be turnkey full systems or product integration solutions.

LogistiQ boasts a century of American innovation and manufacturing excellence. Originating from LEWCO Inc. in Sandusky, Ohio, we specialize in e-commerce conveyance solutions. As a third-generation family-owned business, we offer services from planning and manufacturing to installation and technical support. Our commitment is to deliver cutting-edge solutions tailored to your needs, assuring every piece fits seamlessly into place. Whether you need a single product, product integration for an existing system, or a complete overhaul, we're here to elevate your operations for the future.

Our 750,000-square-foot facility, located in Port Clinton, Ohio, near the shores of Lake Erie, is the center of our operations. Since launching in 2021, we have undergone three rounds of extensive renovations, with our most recent one completing in the spring of 2024. We invested in state-of-the-art equipment and technology, and most importantly, our skilled team. We hire individuals who are not only skilled for the specific position but also those who align with our culture and core values: integrity, innovation, accountability, and collaboration. This enables us to deliver superior conveyance products of the highest quality. In turn, our positive workplace culture is one of the reasons we are able to continue to grow our team to best suit our expanding customer base, thanks to the industry's rising demand. Our human resources team continues to organize hiring events and excelled in recruitment throughout 2023 and 2024, successfully bringing on board more than 200 new employees!

Our commitment to our customers extends beyond the initial sale and installation. We offer extended service options, ensuring they're well taken care of even after their warranty ends. We equip our team with state-of-the-art tools and prioritize both internal and external training, ensuring they remain highly skilled in mechanical and electrical fields. We view continuous education as a key to success and are dedicated to supporting our team's development. By fostering an environment of growth and opportunity, we empower our employees to excel both personally and professionally, contributing to our collective success.

At LogistiQ, we aim to ensure you understand our commitment to supporting your business. We offer tailored solutions to fit your exact needs and invite you to initiate discussions with us today.
