## PRODUCT DETAILS

Keeping up with the continually changing and ever-growing retail, e-commerce and distribution industries can be a daunting task as you strive to stay ahead of the pack. The traditional fixed positioned conveying systems are designed to carry out a single process limiting flexibility required for ever-changing demand. We developed an innovative flexible conveyor system that is expandable, portable, quiet, durable, and cost-effective. Our Flexible Portable Roller Conveyor (FPRC) system can connect in runs up to 80 feet with a single 110V power drop. This versatile system can zig-zag to maneuver around existing equipment or building structures, allowing the creation of a temporary conveyor line to meet ever-changing needs. To complement this system, we developed an innovative powered assist drive to allow the operator to easily maneuver the conveyor line. Our flexible conveying system can provide you with the solution you need to manage ever-changing markets.

## FEATURES & BENEFITS

- Safe – No Guarding
- Portable
- Configurable
- 110V Single Phase Power Req.
- Reversible
- Variable Speed
- Power Assist
- Fully Assembled for Easy Installation
- Plug & Play
- Requires Minimal Spare Parts
- Smooth Operation
- Quiet

## WHAT IT CAN BE USED FOR

- Transportation
- Sortation
- Merging
- Dock Delivery
- Zone Accumulation
- Gapping
